- A catalyst for an ongoing exchange of ideas to build momentum for wider implementation of CSS
 - Series of ten regional workshops—on-site and webcast access
 - Compile and present exemplary case studies
 - Projects
 - Plans
 - Programs
 - Connect with new constituencies and partners
 - Establish and support professional and partner network

Welcome to CSS National Dialog 2

Goals:

- Identify and Highlight CSS Best Practices
- Introduce CSS principles and practices to partner organizations
- Strengthen and broaden the interest in Context Sensitive Solutions
- Discover new partnership opportunities
- Bring new perspectives to transportation
- Foster a community of CSS practice
- Continue the conversation from the first CSSND

Welcome to CSS National Dialog 2

What is Context Sensitive Solutions?

- “A collaborative, interdisciplinary approach that involves all stakeholders in providing a transportation facility that fits its setting. It is an approach that leads to preserving and enhancing scenic, aesthetic, historic, community, and environmental resources, while improving or maintaining safety, mobility, and infrastructure conditions.”

(AASHTO and FHWA)
